Paint pattern chronology

Original pattern on $\frac{1}{4}$ " Masonite

Finished carving, cleaned up and paint-ready

1st paint pattern – 4 colors, basic color theme

2nd paint pattern – 6 colors, Xmas decorative attempt – green was too dark and glossy

3rd paint pattern – six colors, light fern green with light brown over brush – great result

Conclusions

1. Start with a basic color palette (3-5 color set)
2. Go for an authentic color selection
3. Use lighter, wash costs for grain, texture and carving pattern emphasis
4. Use light over-wash for accenting features
